# “Being Trauma Sensitive: What you need to know to create a better life for children and families”

Dr. Robert Rhoton will again present a unique discussion of the elements of trauma, with supporting materials on the nature of how trauma can impact life and relationships, both now and in future generations. He will review developmental dynamics that can lead to frustrating relationships and problems in the lives of individuals and families, with a focus on how to help bring peace and healing through the application of compassion, safety and respect. The workshop will be held:
